

# TAKE PUSH-TO-TALK FURTHER

## WAVE™ ONCLOUD

Push-to-Talk (PTT) is no longer only for two-way radios. Group communication can now include those who rely on smartphones and tablets as well as two-way radios. WAVE OnCloud is a communication service that instantly connects your team at the push of a button and shares multimedia information using the broadband devices and networks they already have.

ACCELERATE THE FLOW OF INFORMATION WITHIN YOUR ORGANIZATION AND INCREASE PRODUCTIVITY WITH SECURE, AFFORDABLE PUSH-TO-TALK.
